

# ELAN DIVON

"Elan's passion and energy are contagious and are reflected in everything he does. A rising star, those who have the opportunity to meet and hear Elan immediately recognize his wisdom and impact!"

*Ambassador Haile Menkerios  
Under Secretary General of the United Nations*

Elan Divon is an author, social entrepreneur, speaker and mentor. His approach blends ancient wisdom with proven personal development strategies into a unique system called "Initiation". Elan's mission: to help people develop clarity of purpose, break-through limiting beliefs, and step full throttle into their power and potential.

Ever since emerging from a terrorist bombing at age 20, Elan has worked with people of all backgrounds to do just this. He has addressed CEO's, business leaders, and entrepreneurs through groups such as Tiger 21; mentored the homeless as an instructor with the Ve'ahavta Street Academy, and empowered Palestinian and Israeli teenagers as a peace camp director. Most recently, Elan co-founded Millennium Mastery; a Los Angeles based program that prepares young people for the challenges and opportunities they will face post graduation. In 2015, during his tenure as Vice President of Canadian Friends of Hebrew University, Elan co-founded the Einstein Legacy Project to inspire the next generation of brilliant minds on the planet. The project was featured at NASDAQ and developed a first-of-its-kind partnership with the European Space Agency to find and support young innovators in underserved communities in Africa. In this capacity Elan also co-created Genius 100 Visions: the world's first 3D printed book that invites 100 of the greatest minds on the planet to share their vision of the future with humanity.

To further his message, Elan writes for The Huffington Post and The Hearty Soul while his work has been covered national and internationally in publications such as Forbes, the Lindau Nobel Blog, Wall Street Select, De Telegraaf (Holland) and The Jerusalem Post. Elan holds graduate degrees from Brandeis and Harvard Universities and is in the midst of publishing his next book entitled, *The Initiation*.
